SUMMARY

Full-Stack Software Developer with 5 years of experience in web development and 3 years of experience in mobile application development. Skilled in designing, developing, and deploying scalable web and mobile applications using Laravel, NestJS, React.js, React Native, Nuxt.js, PostgreSQL, and RESTful APIs. Passionate about building secure, responsive, and user-focused software solutions while following clean architecture and best development practices.

EXPERIENCE

Freelance Software Developer

2020-present

- Develop full-stack web applications using Laravel, NestJS, React.js, Nuxt.js, and PostgreSQL.
- Build cross-platform mobile applications using React Native and Expo.
- Design and develop secure RESTful APIs for web and mobile applications.
- Develop responsive admin dashboards and business management systems.
- Integrate third-party APIs including Google Maps, authentication, payment gateways, and cloud services.
- Design and optimize relational databases using PostgreSQL and MySQL.
- Deploy applications to production servers and provide maintenance, bug fixes, and feature enhancements.
- Work directly with clients to gather requirements, propose technical solutions, and deliver projects on schedule.

App Developer

2026-present

BizFRIEND Digital Solution

- Develop and maintain cross-platform mobile applications using React Native and Expo.
- Build responsive and user-friendly mobile interfaces for Android and iOS.
- Integrate RESTful APIs and third-party services into mobile applications.
- Implement authentication, notifications, and offline data management.
- Debug, test, and optimize application performance for a seamless user experience.
- Collaborate with designers, backend developers, and stakeholders to deliver high-quality mobile solutions.
- Publish application updates and maintain existing mobile applications.

Lead Full-Stack Developer – AI-Integrated OBE Grading System (Capstone Project)

2025-2026

Caraga State University – Cabadbaran Campus

- Led the development of an AI-Integrated Outcome-Based Education (OBE) Grading System.
- Developed backend services using NestJS, TypeScript, and PostgreSQL.
- Built responsive frontend interfaces using React.js.
- Integrated a Machine Learning model using Python and Multinomial Logistic Regression for student performance prediction.
- Implemented authentication, role-based access control, grading automation, and reporting modules.
- Designed and optimized the relational database architecture.
- Worked closely with stakeholders to improve grading workflows and academic reporting.

EDUCATION

Caraga State University - Cabadbaran Campus

2022-2026

Bachelor of Science and Information Technology

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, PHP, SQL, Python
- **Frontend:** React.js, React Native, Nuxt.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Nest.js, Laravel, Node.js, REST API
- **Databases:** PostgreSQL, MySQL
- **Development Tools:** Git, GitHub, Postman, VS Code, Expo, Andriod Studio, Xcode
- **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrator

SOFT SKILLS

Problem Solving Analytical Thinking Team Collaboration Communication Adaptability Time Management Leadership Attention to Detail
